Thank You!

What size car do I need to pick up the popcorn?

- Midsize car – 20 cases
- Luxury size/Explorer – 40 cases
- Mini Van – 60 cases
- Large SUV/Suburban – 70 cases
- U-haul or trailer – over 70 cases

Please **NOTE:**

- Try to minimize the number of persons riding in the pick-up vehicle, as that reduces the room for cases
- This year, with our new popcorn partner, all items come in tins (except microwave popcorn), so the sizes of cases will be different
- The 3-way and Mauve Variety popcorn are much smaller than the other cases and are one per case
- Other products come 8 tins per shipping case, except for the Movie Theatre microwave, which is 6 per case
