Wisdom Trail

To improve district committee productivity, operational consistency, and role awareness across all Circle Ten Council districts, six Service Area District Committee Training Workshops will be offered over the next several months. All members of the district committee should attend any of the six sessions, regardless of prior training.

The workshop will include general sessions in which all members participate as one and then operational, topic-specific breakouts which provide more focus in finance, membership, and program.

Registration, via CampMaster (<https://circle10.camp-master.com/>), is only \$10 which includes all course materials. Specific times and locations will be noted in CampMaster.
